Messages from the End of The World by Matteo Born

Synopsis: Overwhelmed by the consequences of climate change, Doris and Charles are determined to do something. Convinced that the solution is in the hands of young people, these two retirees sell their house in Zürich and buy a boat. Their idea is simple. Take five young Swiss people to the arctic circle to observe the signs of global warming and then raise awareness through social medias amongst their generation. The great adventure begins. For three weeks, the crew of the San Gottardo is going to navigate in hostile but beautiful landscapes. Armed with cameras, these kids are going to document the health of the end of the earth.

- Award won: Special Jury Award
- Duration: 51 minute 15 seconds
- Theme: Climate Change and Youth Action

Pocket Talk

Title : Youth Leaders in the Environmental Industry

Description : The term "future generations" has always been used to represent the youth as the next stewards in the environmental field. So how do they start being leaders and good stewards of the environment now? Come and listen to a panel of speakers from EcoKnights who are currently leading teams as they share their experience and knowledge on how they as youth leaders are able to play their role in advocating sustainability for the future.

Speakers : Luqman Avicenna (Graphic Designer) , Johanan Kong (Youth Development & Volunterism Officer) and Mok Yi Ying (Public Outreach Officer)

Moderator : Fadly Bakhtiar (Programme Director of EcoKnights)

Pocket Talk

Title : Plug & Clean Filter :Waste to Solution,Solution to People

Description : GT ENVIROSENTRY's Pocket Talk aims to share the audience with the condition of our urban rivers especially in KL and how our product, Plug &Clean Filter can help to reduce the impact and revitalize the river again. The session will be started with Miss Fong from ERE consultant on the Kerayong River pollution issues and the list of initiatives that has already implemented in River of Life. The session will be continued by our Chief Technical Officer, Lennevey Kinidi on how our product is able to help to solve this issue and the benefits it will bring to community. The last highlight of our pocket talk will be the demonstration of plug and clean filter on its mechanism remediating the wastewater to the kerayong river from Class IV to Class IIB.

Speakers : Ms. Fong Chuen Far and Lennevy
