## KASA MINISTER: COLLECTIVE EFFORTS KEY TO THE SUCCESS OF VIRTUAL IGEN 2020

In his closing remarks for IGEN 2020, the Minister of Environment and Water (KASA), Yang Berhormat Dato' Sri Tuan Ibrahim Tuan Man said, "Despite the shift from a physical to a virtual event, I am proud to share that IGEN 2020 has been very well received. I've been informed that we have already achieved the targets for initial business leads and number of online visitors, emphasizing IGEN's powerful and decisive role in positioning Malaysia, once again, as a flourishing green economy, notwithstanding the current economic unpredictability."

"This success would not have been possible without the hard work and dedication of all the parties involved, including the Malaysian Green Technology and Climate Change Centre (MGTC); our generous sponsors: PETRONAS, Solarvest Group and the British Malaysian Chamber of Commerce; our strategic partner: the Malaysian Investment Development Authority (MIDA); our business matching partner: the Malaysia External Trade Development Corporation (MATRADE); as well as all our conference and media partners."

"Most importantly, I would like to express my heartfelt appreciation to the exhibitors who have supported us, even though this was the first time IGEN had to be held strictly on a digital landscape. In fact, it came as a surprise that this year, we had more new organizations joining the IGEN family, proving that the green technology industry is indeed more relevant than ever, especially as we start building back better."

"With that, it gives me immense pleasure to announce that we will be returning next year, with IGEN 2021 which will be held from 13th to 15th October 2021. I look forward to welcoming everyone back. In the meantime, I encourage you to continue exploring the latest innovation in the industry and foster green partnerships that will be environmentally and economically beneficial, as we all working towards creating a greener future together."

## BUILDING A CLIMATE ACTION COMMUNITY

**"I congratulate the organisers, sponsors and partners, as well as all those who participated to make IGEN 2020 a grand success.**

IGEM has proven to be the perfect platform to grow our community of climate action advocates given its hundreds of exhibitors, scores of conferences, speakers and business matching programmes, bringing like-minded yet diversely talented individuals to a singular platform.

Let's continue to grow our circle of influence to build our climate action community. **"**

## FROM IGEM 2020 SPONSORS

“ It has been a truly eye-opening experience to participate in the Virtual IGEM which displays the feasibility of bringing industry leaders and companies from across the world together leveraging on digital technology. For us at PETRONAS, Virtual IGEM provided us a platform to showcase our capabilities and offer cost-competitive clean energy solutions that are tailored for our customers' needs. ”

“ The British Malaysian Chamber of Commerce (BMCC) is pleased to participate in IGEM 2020 as we recognise the significant role IGEM has played over the past 10 years in showcasing Malaysia's commitment to environment stewardship and sustainability.

As a bilateral trade organisation, the BMCC is proud to host a UK Pavilion showcasing green technology companies creating solutions for a sustainable world. We view IGEM 2020 is a valuable avenue for knowledge sharing, exchange of best practices and fostering greater collaboration between the UK and Malaysia for a green economy and sustainable development. ”

## MALAYSIAN STATE PAVILLIONS

### Sabah

Despite the challenges of the pandemic, the Sabah government will continue to cultivate green technologies across whole-building energy efficiency, water conservation, materials and waste management, interior air quality and in the palm oil sector.

As such, IGEM has been an opportune platform that we will continue to support and benefit from. We are pleased to have participated in this year's virtual IGEM which provide us with many key learnings from the outstanding exhibitors and speakers from across the globe.

### Kelantan

To date Kelantan Utilities Mubaarakan Holdings Sdn Bhd has successfully brought in green technology investments mainly in renewable energy and green mobility such as floating solar farms, small hydro projects and electric beca. We are actively and progressively developing green technologies in Kelantan.

The Kelantan State Government is committed to ensuring the state be developed sustainably and therefore Kelantan Sustainable Development Masterplan has been established in 2020. To fulfil this mandate in achieving Kelantan Sustainable Development Goal, the State Government has also appointed its GLC, Kelantan Utilities Mubaarakan Holdings Sdn Bhd to develop the green technology industry in Kelantan.

### Perlis

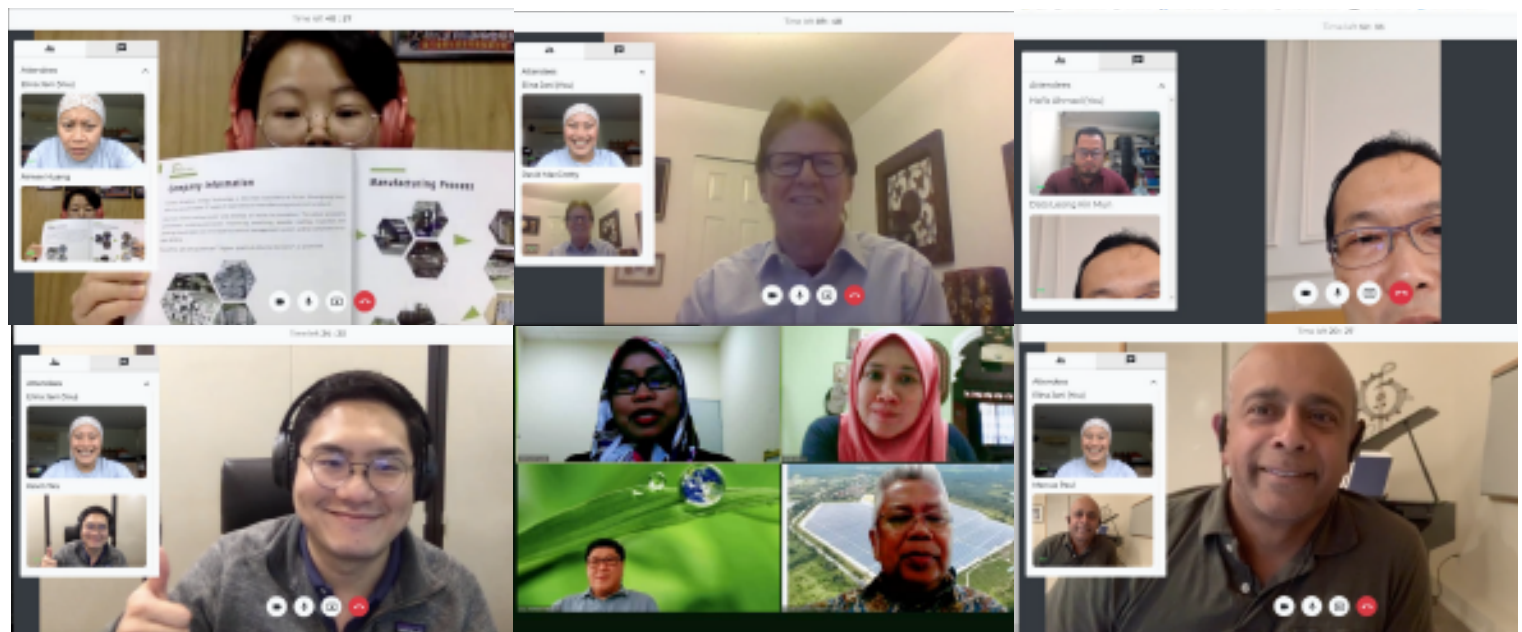

IGEM 2020's theme of Energising Sustainability ties in with the Perlis State Government's vision of transforming Perlis into a "Perlis Bandaraya" by 2030, with a clear focus on green manufacturing and renewable energy generation among other sectors.

The Perlis State has supported IGEM across various years and looks forward to many more such impactful events that bring the best green technologies in the world into Malaysia for the benefit of the environment and the rakyat.
