

**Nasha Lee**

**United Nations Development Programme (UNDP)**

Nasha Lee is the Environment Analyst for Climate Change and Energy at UNDP Malaysia, Singapore and Brunei Darussalam. In UNDP, she manages a portfolio of projects focusing on climate change, sustainable energy, low carbon cities, and support to the implementation of Malaysia's climate commitments. She has experience in programme management and policy research in the field of climate and energy and has worked extensively with the national government in these areas. In former roles, she worked as a sustainability consultant conducting environmental impact assessments for energy projects. Nasha graduated from the University of Oxford with a Master's degree in Environmental Change and Management where she was a Commonwealth scholar. She holds a Bachelor's degree in Environmental Engineering from the University of Malaya.
