

Norhasliza Mohd Mokhtar

**Senior Director
Cities & Industry Division**

Norhasliza joined Malaysian Green Technology & Climate Change Centre (MGTC) in 2001 when MGTC was known as Pusat Tenaga Malaysia. Currently, she is the Senior Director of Cities & Industry Division that focuses on providing consultancy and advisory services for states and local governments in transforming their cities into low carbon cities and align with Low Carbon Cities Framework and National Low Carbon Cities Masterplan. She is also working closely with the industries to encourage them in adopting green technology specifically in energy efficiency and energy management programmes.

In her more than 20 years of service, she has played a key role in various MGTC projects including Energy Audit Grant for Industrial Sector, Government Green Procurement (GGP) project, MyHIJAU and the ASEAN Energy Management Scheme (AEMAS) Energy Management Gold Standard. She also led in the development of the Green Technology Master Plan, the Green Tax Incentives, and the development of green initiatives at the state level such as the Kedah Green Agenda and Selangor Green Action Plan. She has assisted organisations to develop green roadmaps and action plans.

Norhasliza has an MBA in Strategic Management from Universiti Teknologi Malaysia (UTM) and a Bachelor of Business Administration from the International Islamic University Malaysia. She is an alumnus of the International Visitor Leadership Programme (IVLP) of the US Department of State's premier professional exchange programme.
